

Survey #1

111 Total Respondents:

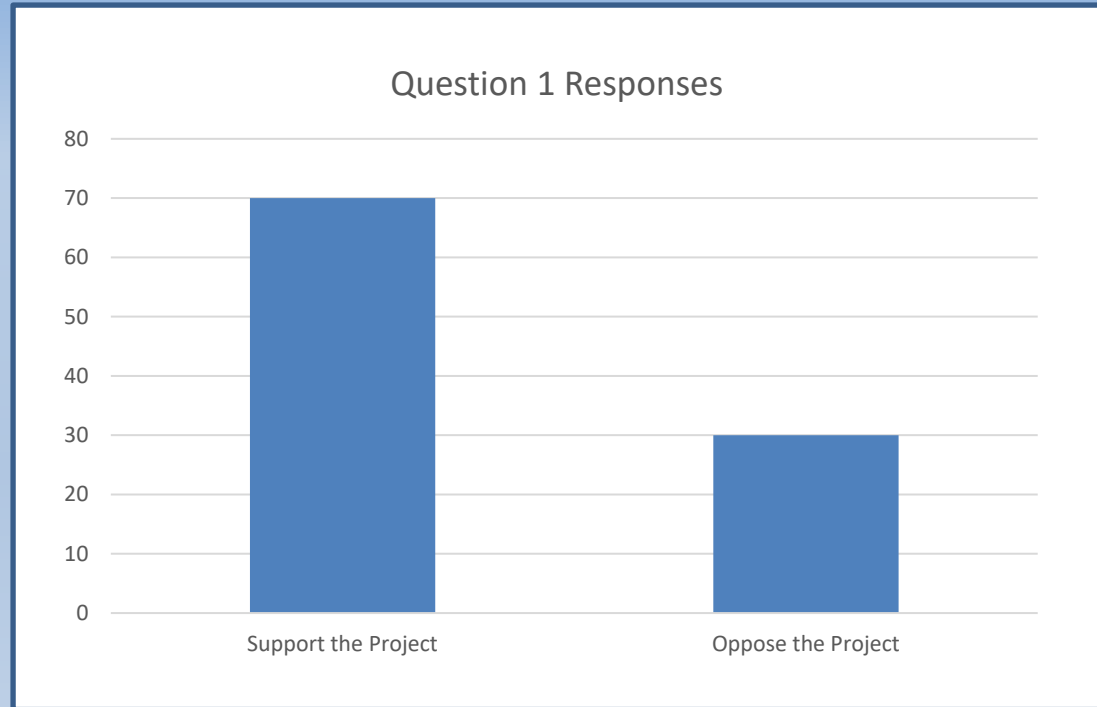

78 approved to continue investigations

33 do not support any additional improvements

Survey #2: Question 1

After reviewing the project costs estimates and information provided, do you support or oppose the Road Improvement Project being considered?

100 Total Respondents:

Support the road improvement project: 70*

*Support for the project is conditional (based on which options chosen): (14 of 70)

Oppose the project: 30*

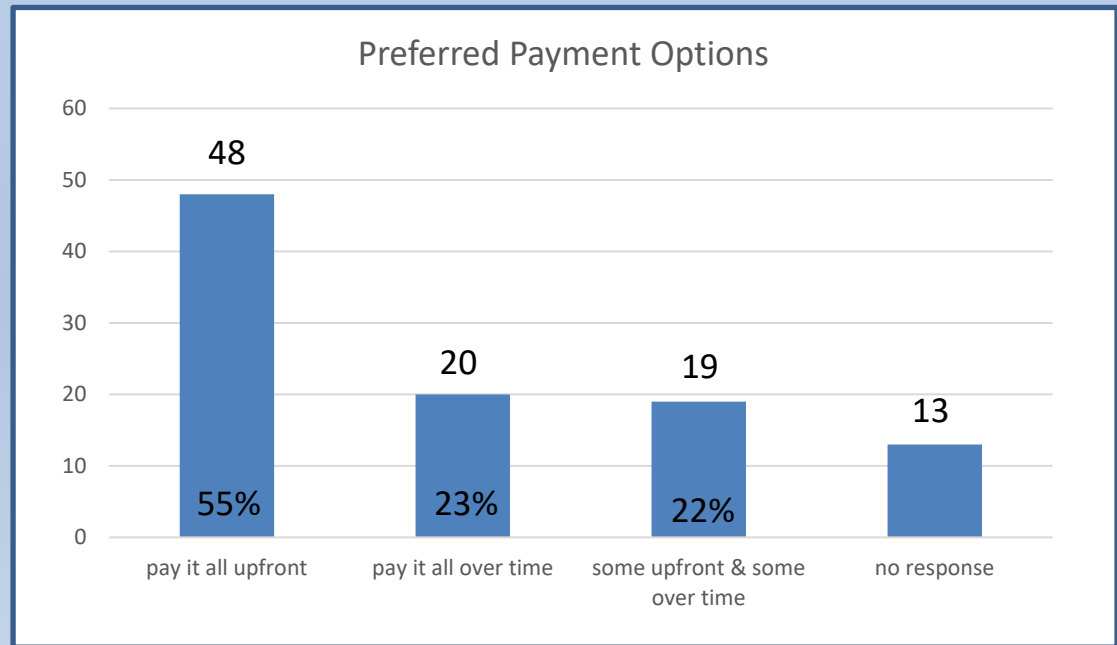

Opposition to the project is conditional (based on certain factors): (2 of 30)

Survey #2: Question 2

If after a vote of all owners the road improvement project were to proceed, and an assessment were levied, would you be more likely to:

1. pay it all up front
2. pay it all over time
3. pay some up front and some over time

100 Total Survey
Respondents:

13 respondents did not answer this question so the percentages calculated were only based on those that responded.

2 respondents stated the method of payment was conditional based on the project chosen.

Survey #2: Question 3

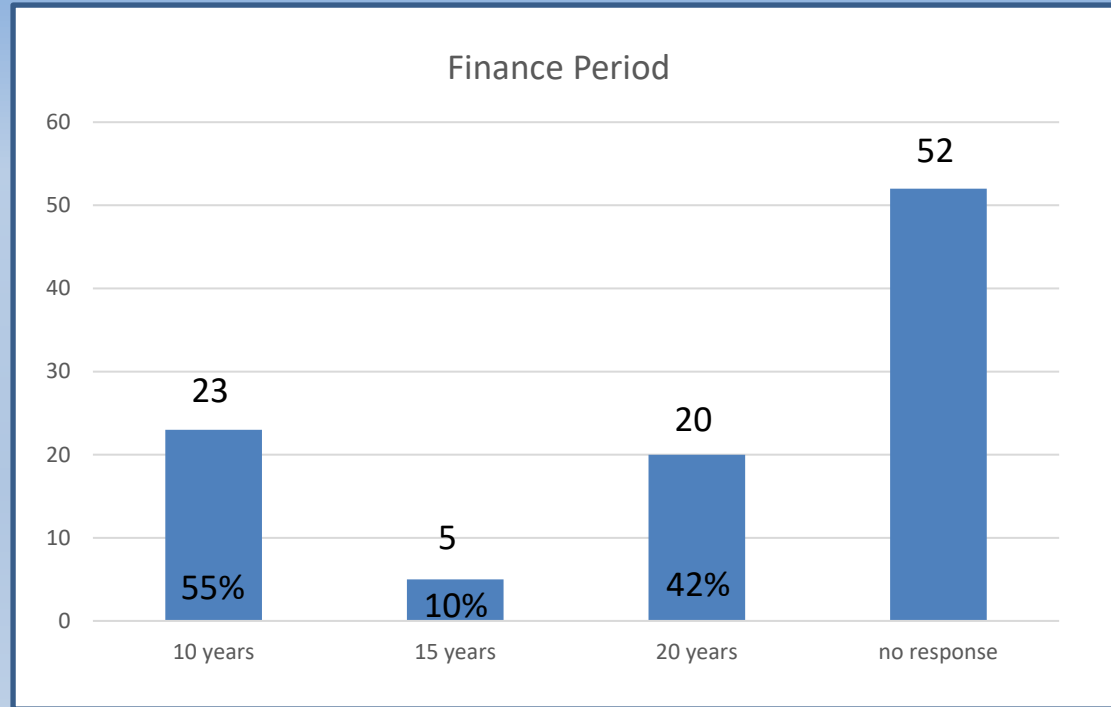

If you would choose to pay all or some of the assessment over time, how long a time would you prefer?

10 years

15 years

20 years

100 Total Survey
Respondents:

52 respondents did not answer this question so the percentages calculated were only based on those that responded.
